CPMS 2.0 Quick Start Guide for Clinicians

This document aims at assisting you in your first contacts with the CPMS 2.0 IT platform. A training environment has been set up to enable you to explore all the system's features without using real patient data.

When using the real system (with real patients), please make sure you always follow the data privacy procedures of your hospital.

You can access the application for testing purposes by clicking on the following link: https://cpms2-acceptance.ern-net.eu/
