and cure in ALS, SMA,  
and other Motor Neuron Diseases*

**21 - 22 March 2025**

It is my pleasure to welcome you to Pisa for this exciting meeting, where we are honored to host an exceptional lineup of international scientists presenting the latest breakthroughs in ALS and other motor neuron disease (MND) research. This event will spotlight emerging applications of artificial intelligence and digital health, with the aim of advancing care and treatment in the field of neuromuscular disorders. Combining established knowledge with innovative research ideas, the ALS Pisa Meeting promises two days of inspiring discussions and invaluable opportunities for interdisciplinary networking within the MND community.
